Cooperative Play Program

Young children are introduced to a structured play setting with activities that engage the whole child - mentally, socially, physically, and emotionally - in preparation for entering the formal education system. Emphases are placed on socialization such as learning to take turns; cognitive growth through music, painting, and cutting; and gross motor development by running and jumping. All Parents must serve a duty day one day per week, per child to assist with organizing and planning of activities. Each site will determine the substitute(s) for duty day(s). For more information, call (202) 282-0710.
